

Healthcare is Everyone's Business

Healthconnect complements your strategy to reduce the cost of providing medical benefits to your beneficiaries, while improving the quality & safety of care they receive.

Over 100,000 people die each year from preventable medical errors.	The average primary care physician coordinates with 229 doctors in caring for their patients.	50% of all readmissions are avoidable.	46% of patients use the Emergency Room for non-emergencies.	
HIE connectivity impacts care delivery:	18% of medication errors and 70% of adverse events can be avoided.	36-52% reduction in repeat testing in the Emergency Room.	Reduce 30-day readmissions by 10% .	Reduce ER visits by 17% .

How the Network Works

The Healthconnect health information exchange (HIE) links independent physicians, hospitals, labs, imaging centers, and other providers that deliver care to your employees. Your complete health record is available to better inform decisions made at the point of care. Coordinated care improves quality and safety, as well as avoids unnecessary testing and procedures, and lowers healthcare costs for your organization and your employees.

Community-wide Call to Action

- Sponsor the connection of geographically relevant physician practices and small hospitals
- Incentivize HIE adoption within your networks
- Partner with Healthconnect to inform your employees of the benefits of HIE

Request an ROI

- Based on the geographic concentration of your employees and their healthcare utilization patterns, Healthconnect can provide you a projection of the financial impact HIE will have on your organization.
